Nervous Cramps in Hands and Feet.

My Salvation.

Sleeplessness is at once a symptom and a disease. Just as soon as the nerves become deranged the patient suffers from sleeplessness. Deprived of their natural rest the nerves soon lose all force and vitality and while sleeplessness is a symptom in such cases it frequently becomes chronic and remains the chief effect of disordered nerves. remains the chief effect of disordered nerves. Dr. Miles' Nervine quiets the nerves and strengthens them; soothes the tired brain and permits sleep; restores lost energy and vitality and brings sleep, health and strength.

had been under the doctor's care and taking his medicine for over two years, but the nervous trouble that was gnawing my life away grew steadily worse. I had nervous cramps in my hands and legs, which would draw up and pain me so that I could not sleep at night. Often I never closed my eyes for days and nights together. The doctor finally told n.e he could do nothing more for me and that I was on the verge of insanity. He told me I might try your Nervine as a last resort, and it proved to be my salvation. When I had used four bottles of the remedy together with the Nerve and Liver Pills I had regained my former good health "—Mrs. M RTHA L SHEFFER, Omer. Oklahoma.
